### DESCRIPTION OF PROPOSED WORKS

The works for diversion and the ditch are now constructed, but it is proposed eventually to take the water through a new proposed canal diverting at or near the present site and thus avoid losses that now occur, instead of permanently lining the ditch that now exists. The new canal is a proposed power canal that will partly destroy the existing ditch.

5. Estimated cost of works from \$1,000.00 to \$2500.00

6. Estimated time required to construct works Five years
